

M220-232A-E-PP

Hendor "E" Filtration Systems

Practical filter pumps for optimal filtration with PP microfibers

Typical applications

Microfibers Type SP (spaghetti)

- absorbs non emulsified oil out of emulsified cleaners

Microfibers Type AH

- removes gel-like sludge, like SN4+

Features

- Microfibers can be reused
- Absorbs 6-8 times its own weight
- Huge filter surface area and high voids volume

Options

- Flowmeter
- By pass for flow control
- By pass with flowmeter

Filter Systems series E
